

Release Plan
Product Name: Run and Track
Team Name: Running Robot
Release Name:
Release Date:
Revision Number: 1
Revision Date: 06/27/2019

High-level goals:

- Be Able to Create a Profile
- Be Able to Track Time and Distance on Run
- Be Able to Visualize the Distance/Route on a Map
- Keep Track of Calories Burned
- Store/Save Previous Runs in Profile History
- Visualize Previous Runs on Graph

User Stories for release:

- ❖ Sprint 1
 - User Story 1: As a tester, I want an interface that I can use the app to test
 - User Story 2: As a runner, I want to keep track of how many kilometers and time I spent per run
 - User Story 3: As a runner, I want to keep track of how long I run per day
- ❖ Sprint 2
 - User Story 1: As a runner, I want a custom profile so my calories calculated is accurate
 - User Story 2: As a runner, I want to be able to see my history in a graph so I can see if I am improving
- ❖ Sprint 3
 - User Story 1: As a runner, I want to know where I am running so I can keep track of the location
 - User Story 2: As a tester, I need access to the internal database state so that I can determine if the product works properly
 - User Story 3: As a runner, it would be easy for me to navigate through the app

Product backlog (what we didn't do)

- ❖ Currently, none
